Software License Information

Contents

1. Product Scope & Preface

This document provides license information for the congatec board controller firmware GEN5P041.

This software is typically delivered in binary form, embedded into congatec hardware equipped with the Microchip MEC170x based congatec board controller, or as binary file directly to the end customer.

The above mentioned congatec software may contain Open Source Software (OSS) components, licensed under an OSS license and/or other third party software components.

The OSS licenses may require congatec to provide a list of the included OSS components together with their licenses to our customers and/or to distribute the list of OSS components together with their licenses as part of the respective congatec software delivery or the delivery of the hardware products that include this congatec software.

Certain OSS licenses entitle the customer to request the sources of the respective OSS components from congatec. The affected OSS code can be obtained from congatec by sending a specific request within three years after the delivery of the congatec software or hardware.

OSS and other third party software components contained in this congatec software and their associated licenses are listed below.

3. Legal Notes

congatec GmbH reserves the right to make changes in specifications and other information contained in this document without prior notice. The reader should consult representatives of congatec GmbH to determine

whether any such changes have been made. The hardware, firmware, software or any specification described or referred to in this document are subject to change without notice.

The above listed different URLs for the individual licenses have been valid at the time congatec GmbH initially used the components. congatec GmbH has no control of the different URLs, consequentially about the location and the Terms & Conditions on license/URLs. Therefore, it may happen that projects change their location (URLs) or the Terms & Conditions on this URL without any notification. congatec GmbH will not take any responsibility or liability in case of any of such changes.

For some components congatec GmbH was provided an open source disclosure for binaries by a third party. Information for these components is only as accurate as the information provided by the third party to congatec. Customers are welcome to report to congatec any discrepancies related to the disclosures.

In the event of conflicts between congatec license conditions and the Open Source Software license conditions mentioned above, the Open Source Software conditions shall prevail with respect to the Open Source Software portions of the software.

congatec GmbH provides no warranty for Open Source Software (OSS) / third party components contained in its products if such software components are used in any manner other than intended by congatec GmbH. The licenses listed define the warranty, if any, from the authors or licensors of the OSS / third party component.

congatec GmbH specifically disclaims any warranties for defects caused by altering or modifying any OSS components or the product´s recommended configuration. You have no warranty claims against congatec GmbH in the event that OSS / third party components infringe the intellectual property rights of a third party.
