Workload Consolidation

with Real-Time Control, Vison/AI and Edge OS

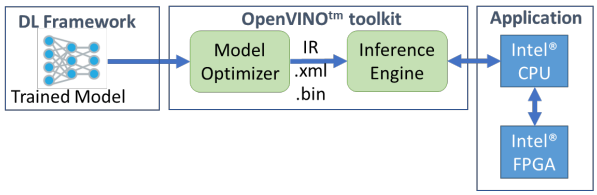

REFLEX CES
Custom Embedded Systems

OpenVINO™ Arria 10

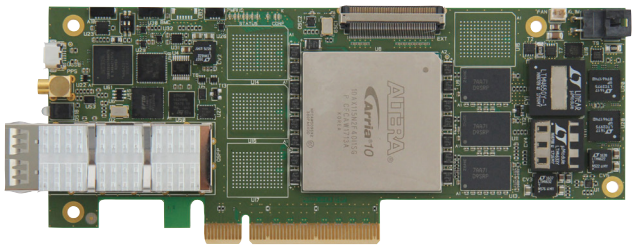

XpressGXA10-LP1151AI

AI Inference FPGA acceleration with OpenVINO™

OpenVINO™ toolkit

- Deep Learning Acceleration Suite
- Supports popular Deep Learning Frameworks
- Turnkey solution offers faster time to market
- FPGA Hardware acceleration with pre-compiled bitstreams

XpressGXA10-LP1151AI

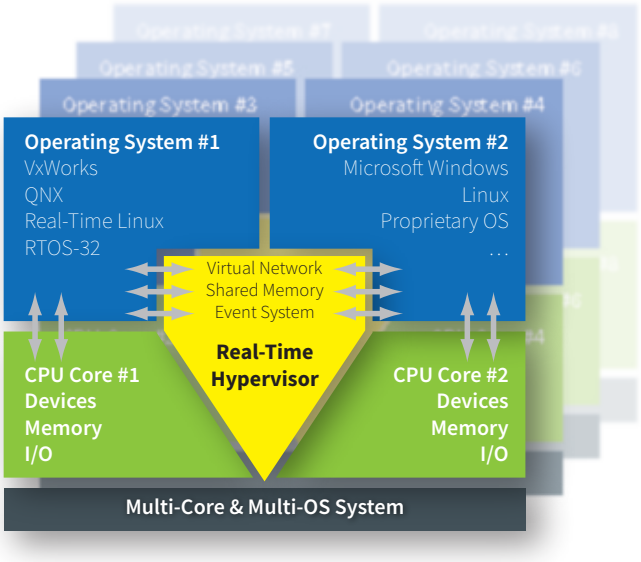

- Low-profile PCIe Gen3x8
- Single slot passive cooling
- Intel® FPGA Arria® 10 GX 1150 KLE
- 8 GB on board DDR4 (x 72bit)
- QSFP+ cage 10/40 GbE ports
- Extension ports (GPIO and XCVR)

Real-Time Hypervisor

harness the power of today's multicore processors

REAL-TIME SYSTEMS GMBH

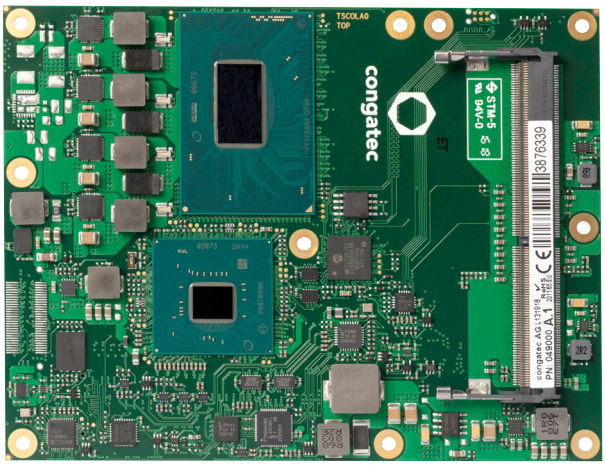

- Consolidate real-time & non-real-time tasks on x86
- Run multiple operating systems on a single hardware
- Reduce hardware costs by 20% to 50%
- Increase flexibility and performance

Contact: info@real-time-systems.com www.real-time-systems.com

conga-TS370

high performance COM Express Module

congatec

- 8th Generation Intel® Core™ processor with up to 6 Cores
- Intel® Xeon® processors for data center applications
- Support for USB 3.1 Gen2 with 10Gb/s
- Intel® Optane™ memory support
- ECC memory support
- Up to 32 GByte dual channel DDR4 memory

intel Technology Provider Platinum 2019

intel IoT Solutions Alliance
